Updated as of January 1, 2012
Privacy Policy

The following discloses our information gathering and dissemination practices for
The Johnson City Music Department's web policies.

- **The Information We Collect**

When you browse any Johnson City Music Department's web page, you do so anonymously. We
also may collect certain non-personally identifiable information when you visit many
of our web pages such as the type of browser you are using (e.g., Firefox, Chrome, or Internet
Explorer), the type of operating system you are using, (e.g., Windows XP or Mac OS), the
domain name of your Internet service provider (e.g., RoadRunner, America Online) and the
search engine from which you were directed (e.g., Google or Yahoo).

- **How We Use the Information**

We generally use the information to compile statistical data. We use the non-personally
identifiable information that we collect to improve the design and content of our site and to
analyze site usage.

We will not sell or rent such information to any third party unless you otherwise specifically
consent. Although we take appropriate measures to safeguard against unauthorized disclosures
of information, we cannot assure you that personally identifiable information that we collect will
never be disclosed in a manner that is inconsistent with this Privacy Policy.

The data you provide is used to enhance the web sites that we offer. Finally, We may disclose
personally identifiable information in response to legal process, for example, in response to a
court order or a subpoena. We also may disclose such information in response to a law
enforcement agency's request, or where we believe it is necessary to investigate, prevent, or take
action regarding illegal activities, suspected fraud, situations involving potential threats to the
physical safety of any person, violations of our terms of use, or as otherwise required by law.

- **Cookies & Web Beacons**

None of our web pages use "cookies." Cookies are text files that are placed in your computer's
browser to store user preferences. Cookies, by themselves, do not tell your e-mail address or
other personally identifiable information unless you choose to provide this information by, for
example, registering at a site. Once you choose to furnish the site with personally identifiable
information, however, this information may be linked to the data stored in the cookie.

We use stat counters to understand site usage and to improve the content and offerings on our
Sites. "Web beacons" or clear .gifs are small pieces of code placed on a web page to monitor
the behavior and collect data about the visitors viewing a web page. For example, web beacons
can be used to count the users who visit a web page or to deliver a cookie to the browser of a
visitor viewing that page. We may use web beacons on this site from time to time for this.
