

The Board of Education is committed to creating and maintaining a positive and inclusive learning environment where all students, especially those currently and historically marginalized, feel safe, included, welcomed, and accepted, and experience a sense of belonging and academic success.

Generally Accepted Beliefs and Agreements

All children deserve to have equal access to opportunity regardless of the color of their skin, their gender, their sexual orientation, the language they speak or their background. This freedom is fundamental to our K-12 education program and is extended to everyone without exception. However, the district also recognizes that students have been historically marginalized due to inequities associated with aspects of their identities and their contexts, including, but not limited to, race, color, weight, national origin, ethnic group, religion, religious practice, disability, sex; sexual orientation, or gender (including gender identity and expression). Racism, discrimination, and marginalization of any people or groups of people, whether intentional or not, have no place in our schools, our district or our community. Such actions damage not only those individuals and groups at which they are directed, but also our community as a whole. We are committed to addressing these inequities and helping each and every student to equitably access learning opportunities in school to enable them all to thrive and to build a better society.

Goals

The goal of the school district is to provide equitable, inclusive and diverse opportunities for all students to reach their highest potential. To achieve educational equity and inclusive education, the district will acknowledge the presence of culturally diverse students and the need for students to find relevant connections among themselves and the subject matter and the tasks teachers ask them to perform. The district will strive to develop the individual and organizational knowledge, attitudes, skills, and practices to create culturally responsive learning and working environments that expect and support high academic achievement for students and employees from all racial groups. Differences will be nourished, celebrated, and welcomed because they are what make students and families unique.

Equity and inclusive education aims to understand, identify, address, and eliminate the biases, barriers, and disparities that limit a student's chance to graduate high school prepared for college, for a career, and for life.

The Superintendent or designee(s) will ensure that curriculum and instructional materials reflect the Board's commitment to educational equity. Curriculum and instructional materials for all grades shall reflect diversity and include a range of perspectives and experiences. Opportunities for cross-cultural and cross-racial interactions that foster respect for diversity will be encouraged through various appropriate instructional activities and extra-curricular programs.

Educational equity is based on the principles of fairness and ensuring that every student has access to the resources and educational rigor they need at the right moment in their education, despite any individual's actual or perceived personal characteristics, not to be used interchangeably with principles of equality, treating all students the same.

Inclusive education is based on the principles of acceptance and inclusion of all students. Students see themselves reflected in their curriculum, their physical surroundings and the broader environment, in which diversity is honored and all individuals are respected.

Accountability, Transparency and Review

The Board, its officers and employees, accepts responsibility and will hold themselves and each other accountable for every student having full access to quality education, qualified teachers, challenging curriculum, full opportunity to learn, and sufficient, individually-tailored support for learning so they can achieve at excellent levels in academic and other student outcomes.

The Superintendent of Schools, or designee, will adopt goals and corresponding metrics related to this policy. The district will identify the multiple indicators necessary to monitor student outcomes, engagement, and school climate, and specific data that will be used to ensure accountability for student, school, and district-wide performance; to reduce variability in outcomes. Reporting may include, but is not limited to, standardized test scores; referrals, suspension and expulsion reports; the percentage of students placed in Bilingual or English as a New Language (ENL), Advanced Placement and remedial classes; as well as employee, parent and student perceptions about school.

The Superintendent will regularly report progress on the equity, inclusivity, and diversity plan and outcomes. Based on those results, this policy, and the specific objectives set to meet its goals, may be revised as needed.

Policy Enforcement

The Board directs the Superintendent or designee(s) to enforce this policy.
