

MISSION STATEMENT AND VISION

0000

The Board of Education recognizes that to govern effectively, it must clearly define why the district exists and what it aspires to be. The Board therefore adopts the following vision statement to convey the district's purpose, and mission to set forth what the district should strive to become in the future with beliefs that provide the foundation for all education decisions.

VISION: Building strong relationships with each other and our community, we will provide inclusive, inspiring, and rigorous experiences for all.

MISSION: Creating educational opportunities for all students in preparation for success in an ever-changing community.

CORE VALUES: We believe we can achieve our vision and accomplish our mission by focusing on clearly defined and consistently demonstrated core values. To that end, in all of our actions and interactions, we will:

- Demonstrate pride and belief in our students.
- Provide relevant learning opportunities.
- Focus on individual growth and academic achievement.
- Foster collaboration, cooperation, and creativity.
- Meet the social emotional needs of each student.
- Provide a safe, equitable, and socially responsible environment.
- Embrace the traditions of our district.
- Honor our commitment to be fiscally responsible while supporting educational programming

Annual Review

The Board recognizes that while the vision, mission, and values are intended to be a long-range statement of the ideal future for the district, it still requires continual assessment. Accordingly, the Board will review these statements in developing the district's annual goals and action plans.
